312 East Commercial Street Set for Demolition Tuesday, July 21 at 11 AM

The commercial building located at 312 East Commercial Avenue in downtown Sanford will be demolished on Tuesday, July 21 at 11 AM.

The property contains approximately 39,305 square feet of land of which a 13,693 square feet concrete masonry building, built in 1969 sits. This building is set for demolition on Tuesday. Removal of this building will provide a contiguous city block area that will be made available for redevelopment.

“The demolition of this site, 312 Commercial, will be a step towards new possibilities for Sanford’s future. We are looking forward to the promise of attracting new development that will increase the economy of the downtown area and the city overall, ultimately bringing more residents and visitors here to enjoy our great City,” said Mayor Jeff Triplett.

The contractor is Central Environmental Services, Inc. (CES) whom completed the demolition of the old post office site. Currently they have a sub-contractor, Abatement Central, Inc. (ACI) that is removing asbestos from the building so that CES can separate and recycle a majority of the building material.
