NEWS RELEASE

Two-day-a-week potable irrigation resumes Mar. 9th

Landscape irrigation with potable or fresh water will return to two days a week throughout for Sanford Utility customers when Daylight Savings Time begins on Sunday, Mar. 9th. Lawns need more water during the spring and summer, and healthy landscapes can be maintained by watering two days per week.

The City's watering restrictions help ensure the efficient use of water for landscape irrigation. The restrictions apply to water withdrawn from ground or surface water, from a private well or pump, or from a public or private water utility.

During Daylight Savings Time, the following schedule applies for potable and fresh water:

- Wednesday & Saturday, homes with addresses that end in an odd number or have no address.
- Thursday & Sunday, homes with addresses that end in an even number
- Tuesday & Friday, nonresidential properties.
- Water only after 4 p.m. and before 10 a.m., and only when needed

Landscape irrigation will return to the two-day-a-week schedule when Daylight Saving Time returns on November 9, 2014.

Reclaimed Water irrigation schedule remains as follows:

- Saturday, Monday and Wednesday, homes with addresses that end in an odd number or have no addresses
- Sunday, Tuesday and Thursday, homes with addresses that end in an even number
- Water only after 4 p.m. and before 10 a.m., and only when needed.
